

ABDUL MANAN ALI

Senior Frontend Software Engineer | React | Next.js | TypeScript

Lahore, Pakistan • abdulmanan222111@gmail.com • +923234314270 • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Senior Frontend Software Engineer with 6+ years of hands-on experience architecting high-performance, responsive web applications using React.js, Next.js (App Router, Server Actions, SSR/ISR), TypeScript, and Tailwind CSS. Proven track record of optimizing web performance—boosting Lighthouse scores by 30%+ and reducing initial page load times—while leading component library standardization, state management architectures (Redux Toolkit, Context API, TanStack Query), and API integrations. Skilled in translating complex UI/UX designs into pixel-perfect, accessible, and scalable frontend code for enterprise platforms.

TECHNICAL SKILLS

- **Core & Frontend Architecture:** React.js (v18/v19), Next.js (App Router, SSR, SSG, ISR), TypeScript, JavaScript (ES6+), HTML5 / Semantic Web, CSS3 / Modern Layouts
- **Styling & UI Design Systems:** Tailwind CSS (v3/v4), Framer Motion / Motion, Ant Design, Material UI (MUI), Responsive Design, WCAG Accessibility (a11y), Figma-to-Code
- **State Management & Data Handling:** Redux Toolkit / RTK Query, TanStack Query (React Query), Context API, RESTful APIs Integration, Axios / Fetch API, Formik / React Hook Form, Zod Validation
- **Performance & Workflow Tools:** Core Web Vitals Optimization, Code Splitting & Dynamic Imports, Git / GitHub / GitLab, Vite / Webpack / ESBUILD, Agile / Scrum Methodologies, ChatGPT / AI-Assisted Dev

PROFESSIONAL EXPERIENCE

Senior Frontend Developer — The Neo Solutions

Lahore, Pakistan | 2024 – 2026

Key Tech: React, Next.js, TypeScript, Tailwind CSS, Redux Toolkit, Framer Motion, REST APIs

- Architected and modernized core frontend applications using Next.js (App Router), TypeScript, and Tailwind CSS, improving overall page load speeds by 30% and achieving 95+ Lighthouse performance scores.
- Engineered scalable e-commerce and CMS platforms supporting 10,000+ active monthly users and cataloging 1,000+ products with Server-Side Rendering (SSR) and Incremental Static Regeneration (ISR).
- Delivered headless CMS solutions that streamlined content publishing workflows, reducing content update turnaround time by 10% and improving operational team efficiency.
- Created pixel-perfect, responsive component libraries using Tailwind CSS and Motion, ensuring seamless user experiences across mobile, tablet, and desktop viewports.

MERN Stack / Frontend Developer — GoSaaS Labs

Lahore, Pakistan | 2021 – 2024

Key Tech: React.js, TypeScript, Redux, Node.js, Express, MongoDB, REST APIs, Tailwind CSS

- Developed and maintained an enterprise Agile ETL platform using React, TypeScript, and Node.js, processing over 1,000,000+ data records daily for 100+ business users with zero UI lag.
- Built a library of 10+ reusable React component modules and custom hooks, standardizing frontend architecture and cutting feature development cycles by 30%.
- Integrated complex RESTful API endpoints with optimistic updates and client-side caching, reducing network request overhead by 25% and preventing data re-fetching bottlenecks.
- Collaborated with cross-functional product and design teams in Agile/Scrum sprints to deliver bi-weekly production releases and fix critical performance defects.

React Developer — Codility Solutions

Lahore, Pakistan | 2020 – 2021

Key Tech: React.js, JavaScript (ES6+), Redux, Context API, CSS3, Ant Design, REST APIs

- Built dynamic, high-performance web applications using React.js, Redux, and Context API, delivering scalable state management for multi-step interactive workflows.
- Transformed UI/UX wireframes from Figma into fully responsive, cross-browser compatible React components adhering to clean code and component-based paradigms.
- Designed and maintained custom internal component libraries, boosting code reusability, maintainability, and development velocity across 4+ client software projects.

Junior React Developer — Luminogics

Lahore, Pakistan | 2020 – 2021

Key Tech: React.js, JavaScript (ES6), HTML5, CSS3, React Router, REST APIs

- Completed rigorous frontend development immersion in React.js core fundamentals, including component lifecycles, hooks, props, state management, and SPA routing.
- Engineered single-page React applications (SPAs) with asynchronous API consumption, real-time input validation, and responsive CSS flexbox/grid layouts.

IMPACTFUL TECHNICAL PROJECTS

Seulah Digital Financing Platform (Lead Frontend Engineer)

Secure, compliant loan application platform in Saudi Arabia operating under Saudi Central Bank (SAMA) regulatory standards.

Tech Stack: React.js, Next.js, TypeScript, Tailwind CSS, REST APIs, Form Validation

- Architected secure web interface with multi-step loan calculation, identity verification workflows, and strict data validation in compliance with SAMA standards.
- Implemented custom responsive design patterns and localized RTL layout structures for seamless Arabic and English user accessibility.

Bandre No-Code Website Builder (Frontend Developer)

Interactive website builder platform empowering non-technical users to build and publish custom web properties.

Tech Stack: React.js, Next.js, TypeScript, Tailwind CSS, State Management, Framer Motion

- Built dynamic theme selection engine and real-time live preview editor allowing custom section configuration and drag-and-drop page assembly.
- Integrated custom domain binding and dynamic metadata controls, boosting site generation speed and client onboarding efficiency.

Ingenious Track E-Commerce & Admin Hub (Frontend Developer)

Full-featured e-commerce platform and administrative panel for electronics and computer accessories.

Tech Stack: React.js, Redux Toolkit, Tailwind CSS, RESTful APIs, Recharts

- Developed customer storefront with dynamic product filtering, shopping cart persistence, and real-time search functionality.
- Engineered admin control panel featuring inventory management, order status dashboards, category management, and sales analytical views.

The Looks Salon & Beauty Booking Marketplace (Frontend Engineer)

Multi-persona service marketplace connecting salon business owners, consumers, and super-administrators.

Tech Stack: React.js, Next.js, TypeScript, Tailwind CSS, Context API

- Implemented role-based dashboard views for business owners (slot scheduling, service catalogs) and consumers (geo-discovery, appointment booking).
- Built super-admin management console for platform analytics, user moderation, and payment reconciliation.

The Neo Solutions Corporate Web Platform (Senior Frontend Lead)

High-performance, animated corporate web portal showcasing software development services and digital product offerings.

Tech Stack: Next.js, React, TypeScript, Tailwind CSS, Framer Motion

- Revamped corporate portal with SSR and static generation in Next.js, achieving 30% page load speed reduction and boosting search visibility.
- Integrated smooth scroll animations and micro-interactions using Framer Motion while maintaining strict WCAG contrast and accessibility compliance.

EDUCATION

Bachelor of Science in Computer Science (BSCS) — Lahore

Lahore, Pakistan | 2015 – 2019

Garrison University (CGPA: 3.42 / 4.00)

LANGUAGES

English (Professional Working Proficiency) • Urdu (Native / Bilingual) • Punjabi (Native / Bilingual)
